Military action is a method used to attain a political goal. While military affairs and political affairs are not identical, it is impossible to isolate one from the other.

–Mao Tse-Tung
On Guerrilla Warfare, 1937

I do not approve of this system of encouraging political discussion in the Army among soldiers as such...Discussions in which no controversy is desired are a farce. There cannot be controversy without prejudice to discipline. The only sound principle is "No politics in the Army."

–Sir Winston Churchill
Note for the Secretary of State for War, 17 October 1941

Effective civil-military relationships that are fully consistent with our Constitution and the powerful role the United States will continue to play in the international arena are essential for the future security and welfare of all Americans.

–General Barry R. McCaffrey
Foreword, *American Civil-Military Relations*, 2009

PREFACE

This bibliography supports the Civil-Military Relations special theme of the U.S. Army War College's curriculum. It focuses on the principle of civilian control over the military in the United States, but also includes a wide range of references for topics directly related, such as the military profession, strategy, policy, homeland defense, civil support, and the use of force. We have also provided a section about the civil-military relations of other countries. Not a comprehensive listing, this selected bibliography is intended to be a starting point for research.

With certain exceptions, the materials in this bibliography are dated from 1999 to the present. For older materials, please see *Civil-Military Relations*, compiled by Virginia C. Shope, January 1999. All items are available through the USAWC Library. For your convenience, we have added U.S. Army War College Library call numbers, Internet addresses, or database links at the end of each entry. Web sites were accessed May 2011.

This bibliography and others compiled by our research librarians are available online through the Library's home page at <http://www.carlisle.army.mil/library/bibliographies.htm>.
